

5 BCBA CEU's Offered!

Treatment of Pediatric Feeding Disorders

with Cathleen C. Piazza, PhD

Clinician Presentation

Friday, September 30, 2016 • 9:30am-3:30pm
Chicago School of Professional Psychology
325 N. Wells Street, Chicago, IL 60654

Children diagnosed with autism often display behavior problems, and feeding disorders are a common behavior problem exhibited by children with autism.

Join Dr. Piazza in discussing methods of evaluating how we define and measure specific behaviors to quantify the variables related to the etiology of a feeding disorder. Clinicians will review how they can use this data-based approach to prescribe and evaluate the effectiveness of treatment.

Learning objectives:

- Participants will be able to identify a feeding disorder
- Participants will be able to name the interdisciplinary professionals who should participate in the assessment of a feeding disorder
- Participants will be able to recognize at least one method to measure observable behavior
- Participants will become familiar with methods for treating feeding disorders

Dr. Piazza is a national renowned physician specializing in pediatric feeding disorders. She received her doctorate from Tulane University in New Orleans, LA. Dr. Piazza is a Professor in Pediatrics at University of Nebraska Medical Center (UNMC) and the director of the Pediatric Feeding Disorders Program at Munroe-Meyer Institute (MMI).

REGISTER TODAY!
